MOTTO

"Allah will provide for someone from (a quarter) whence he hath no expectation. And whosoever putted his trust in Allah, He will suffice him. Look! Allah bringeth His command to pass. Allah hath set a measure for all things."

(Qur'an, Surat Ath Thalaaq, 65:3)

"AS ANT DO A MILLION STEP TO GET SUGAR"

"Manche Menschen träumen vom Erfolg. Andere sind wach und arbeiten hart daran (NN)." (Some people only dream of success, but others wake up and work hard to achieve that success)

There are days "when not all your expectations are fulfilled"

There are days "where happiness seems only destined for others, isn't it for you"

There are days when you feel like you did your best, follow all the ways of God, but what you receive is sorrow."

But if you choose to accept with a big heart and be grateful for all

The "bad" that happened, at the end of the day you will find out that it's actually

Allah is only testing before he gives the real happiness from the unexpected things....

ABSTRACT

Widya Wulandari. 2021, The Use of Anagram Technique to Improve Student's Vocabulary Mastery in SMPN 04 Dedai. Thesis, English Study Program STKIP Persada Khatulistiwa Sintang. Advisor I: Henry Elisa, M.Pd, Advisor II: Sijono, M.Pd.

The objective of this research is to describe the improvement of the students' participation and the students' vocabulary mastery in learning activities through the implementation of Anagram techniques. This research was carried out due to the students having low motivation in learning. Besides, they got trouble mastering and memorizing the vocabulary so that they had the poor vocabulary. The research used Classroom Action Research; the data of this research was analyzed in both qualitative and quantitative methods. In this research, the researcher used observation, test, interview and documentation techniques to collect the data. The tools of data collection techniques are observation sheets, test sheets, interview guidelines and field notes. The findings showed that there is an improvement in the students' vocabulary mastery and students' participation in learning activities. In cycle one, the average score of students' vocabulary mastery was 72,3 and in cycle two was 86,7. The student's participation in learning activities was also improved, in cycle one was 62,96% while in cycle two was 92,85%. It could be concluded that the Anagram technique could improve the students' vocabulary mastery and the students' participation in learning activities, especially for seventh-grade students of SMPN 04 Dedai.

Key words: anagram technique, vocabulary, vocabulary mastery
