## **MOTTO**

Work like a Bird, Silent like Ninja, Spirit like Dragon!

Do the best what do you think best ( **Jackie Chan**)

Learning Without think it useless, Think without Learn it is

Dangerous. ( **Confusius**)

“My God will supply all your needs according to His riches and  
glory in Jesus Christ”. ( **Philippians 4: 19**)

## **DEDICATION**

I DEDICATE THIS THESIS FOR:

1. Parents and
2. All of my friends, Antonius, Kevin Sutanto, Marcelos Eko, Katrin  
Tryanti, Bill Sopoiso

## ABSTRACT

Indra, Yuvinus Herkolanus. 2022, Improving Student's Vocabulary Mastery Using Mind Mapping of Seventh Grade Students at SMPN 06 Kayan Hilir. Thesis, English Language Study Program of STKIP Persada Khatulistiwa Sintang. Advisor I: Thomas Joni Verawanto Aristo, M.Pd., Advisor II: Sijono, M.Pd.

Keywords : Vocabulary, Simple Mapping

This research aims to improve students' vocabulary using mind mapping and to observe the improvement of their participation in the learning process. The study was conducted with 7th-grade students from SMPN 06 Kayan Hilir, with a total population of 30 students. This research uses Classroom Action Research (CAR). The data were collected through documentation and interviews. The documentation was obtained from students' worksheets, while interviews were conducted to identify the challenges students faced in learning English, particularly vocabulary. The qualitative data helped to uncover difficulties students encountered, while the quantitative data were analyzed through several steps: assembling, coding, comparing the data, building interpretations, and reporting the results. The research was conducted in two cycles. In the first cycle, the average vocabulary score of the students was 62.67, with only 33.3% of the students meeting the *Kriteria Ketuntasan Minimal* (KKM). After the intervention and improvements made in the second cycle, the average score increased significantly to 87.3, with 86.67% of the students reaching the KKM. This shows a marked improvement in students' vocabulary mastery and indicates that the use of mind mapping in the classroom effectively enhances both learning outcomes and student engagement in the learning process. Based on the findings, mind mapping is a powerful tool to facilitate vocabulary acquisition. It is recommended that this technique be continuously used as a regular part of the learning process, not only for vocabulary but also for other language skills such as grammar and reading comprehension. By adapting mind mapping to different aspects of English learning, teachers can further enhance student engagement and improve overall language proficiency.

## **ACKNOWLEDGEMENT**

First of all, the researcher wants to say thanks to the Lord Jesus Christ because of His blessing that the researcher an able to get to this stages, because of His grace, the researcher can carry out all their duties and responsibilities properly. Because of this, the researcher was able to complete a thesis with the title Improving Student's Vocabulary Mastery Using Mind Mapping of Seventh Grade Students at SMPN 06 Kayan Hilir. Therefore, the researcher would like to express their sincere appreciation and gratitude to them, especially to the researcher would like to express his deepest gratitude to Thomas Joni Verawanto Aristo, M.Pd and Sijono,M.Pd as the first and second advisor, thank you so much for their valuable, advice and great suggestion during the writing of this thesis, the researcher would not have been able to complete this thesis without their help.

Thank you so much to all of the lectures of English Education study at STKIP Persada Khatulistiwa Sintang for their guidance, support and help during the researcher as the student in STKIP Persada Khatulistiwa Sintang. The researcher also expresses his gratitude to his beloved parents who always give unconditional love, prayers, and support in completing this thesis. Thank you for being the main reason for researchers to stay strong and struggle in completing their education, thank you for being the biggest motivation to pursue the dream. To my best friends Antonius Yosef Wuring, Katrin Truyanti, Sisilia Husun,

Marcelos Eko, Bill Sopios and Kevin Sutanto that supported me. Thank you for all the advice, assistance, affection and togetherness during the researcher working on this research to completion. Finally, the researcher would like to thank all parties who played an important role in the smooth preparation of this thesis. This thesis is far from perfect, but it is hoped that it will be useful not only for researcher, but also for readers and future researcher.
